31-03-2019

Car Owner Name	
Type of Volvo (Model and Variant)	
Colour	
Registration Number	
Owner Email	
Contact Telephone Number	

Please write in pen and answer all questions.

Part 3

(This part to be displayed in the top left of windscreen facing driver)

To ensure the event can be run to time and most importantly, officials and public attendees are kept safe, all drivers must obey these 10 simple rules.

Failure to comply with these rules may invalidate the entire record attempt for all participants and see the individual/individuals being removed from the event.

- 1) All drivers must obey and follow instructions given to them by the event team, event security and event marshals.
- 2) We recommend that all cars have at least half a tank of fuel to ensure they have enough fuel to complete the five lap course.
- 3) Upon arrival all cars taking part in the record will be directed and placed into a convoy of cars no greater than 50 cars in size.
- 4) Each convoy of 50 cars will follow a designated safety car.
- 5) All drivers must obey instructions issued to them by the safety car driver once placed into the convoy.
- 6) Drivers must maintain their place and position in their designated convoy.
- 7) Drivers will drive their cars in formation with no greater distance than two car lengths between vehicles.
- 8) Over taking is strictly prohibited.
- 9) Drivers must not at any point hang back to create a gap to accelerate into.
- 10) If your car experiences problems and needs to drop out of the convoy for mechanical issues please pull off the track either to your left or right where safe to do so and remain parked up until the event has finished. Do not attempt to re-join.

We actively encourage you to take photos and video of the convoy and please post to your club and Volvo600 forums, websites and online social media page.

Most of all, please socialise, enjoy the day and the experience.

Part 4

(To be placed in top left hand side of windscreen facing outward to event officials).

Volvo 600

World Record Attempt
